Nadja Keraenen	ECONGAS
David Beier	BDEW
Martina Gobbo	AIGET
Astrid Sontag	AIGET
Tine Bax	EURELECTRIC
Maria Holm Bohsen	DERA
Torsten Bsdurek	RWE

## **1. Opening**

Welcome address and introduction of the participants. The agenda and the minutes of the previous roundtable meeting were approved.

## **2. Reporting of non-standard contracts**

Outstanding questions from the previous webinar were discussed. ACER informed the roundtable participants that draft answers would be prepared based on the discussion with the AEMP representatives.

ACER and the meeting participants also discussed other Frequently Asked Questions (FAQs) sent to ACER by several stakeholders via different communication channels. ACER indicated that they would draft the replies based on the discussion.

## **3. AOB**

With regard to the organization of future meetings, ACER informed the meeting participants that webinar and roundtable participants would be asked to provide a list of contact persons per organization in order to facilitate the communication. Once the list is finalized, ACER will organize a meeting in early March.

ACER also informed the meeting participants that most of the questions that were discussed at the meeting would be published in the next FAQ document.

## Day 2

(Chatham House Rules, no names in quotes during the meeting)

Martina Gobbo	AIGET
Astrid Sontag	AIGET
Tine Bax	EURELECTRIC
Maria Holm Bohsen	DERA
Torsten Bsdurek	RWE

## **1. Reporting of non-standard contracts**

A technical discussion concerning the Frequently Asked Questions (FAQs) received by ACER continued.

## **2. General update on REMIT implementation**

ACER provided recent updates on the REMIT implementation. ACER informed the meeting participants that the questions which the Agency had received from different stakeholders had already been or would be answered in the near future through the publication of Q&A and FAQ documents. ACER informed the meeting participants that they are keen to answer any questions. However, ACER pointed out that providing a detailed answer is not always possible, which is why most of the time a reference is made to other publicly available documentation.

ACER informed the participants that in the near future the roundtable could also discuss some policy related issues. ACER also informed the meeting participants that in order to speed up the RRM registration process, market participants should, for the time being, only use the WEB GUI interface. Once approved as RRM, they would be able to select more interfaces and carry out more testing.

ACER informed the meeting participants that the next REMIT Public Workshop will take place on 16 February 2016.

## **3. Reporting of non-standard contracts**

The Frequently Asked Questions (FAQs) received by ACER were further technically discussed and it was agreed that the remaining questions on non-standard contracts would be discussed at the next webinar.

## **4. Planning next meeting**

ACER informed the meeting participants that the next webinar would be carried out during the week of 15 February.

## **5. AOB**

The participants expressed interest in the possibility of discussing transportation contracts at the roundtable. ACER indicated that they were in the process of discussing transportation and fundamental data with the ENTSOs and that it might be possible to discuss secondary capacity contracts with the roundtable participants in the future.
